

INTRODUCTION FOR THE CPSS

"I am going to read to you a list of people or services which may or may not be helpful to you. In this rating think of only how helpful each of them is in making your life easier. They may help you in any way. For example, they may help take care of your child. They may give you useful information or services. They may just give you understanding and support.

For each item, please let me know how helpful that person or service is to you. The more helpful they are, the higher the rating you should give them. If they are not available for you now, respond "Not Available" (NA). If they are available in your area, but you have no contact with them, respond "No Contact" (NC).

There are no right or wrong answers. Please think of how helpful they really are to you, not how helpful you think they should be."
